

BEFORE THE  
FEDERAL AVIATION ADMINISTRATION  
WASHINGTON D.C.

Petition of:

DELTA AIR LINES, INC.  
OPERATING CERTIFICATE DALA026A

For Extension of Exemption 11046B  
continued relief of certain requirements of  
14 CFR 119.49(a)(4)(ii)

Exemption 11046  
Docket FAA-2014-0158

PETITION OF DELTA AIR LINES, INC.  
To Extend Exemption 11046B  
April 30, 2022

Pursuant to the provisions of 14 CFR Part 11, Delta Air Lines, Inc. (DAL), petitions the Administrator to extend the effective date of Exemption No. 11046B.

The exemption grants Delta Air Lines relief from § 119.49(a)(4)(ii) of Title 14, Code of Federal Regulations (14 CFR) to the extent necessary **to allow Delta Air Lines to apply domestic and flag rules while conducting non-scheduled supplemental operations to airports not listed in its operations specifications (OpSpecs), provided certain conditions and limitations are met**. The current exemption's expiration date is August 31, 2019.

The conditions and circumstances which warranted the original grant of exemption, regarding public interest and equivalent levels of safety, continue to exist. This petition does not seek to change the conditions and limitations of the current exemption.

The renewal of this exemption is not a controversial issue. For this reason, and the reasons stated above, Delta requests that a finding of good cause be made for waiving publication in the *Federal Register*, (14 CFR §11.87). Granting the requested relief will set no precedents. The existence of the exemption is well known and widely accepted.

Petition for Exemption – 14 CFR 119.49(a)(4)(ii)  
Delta Air Lines, Inc.
